

Gzunda GZ10SL BED MOVER

The Gzunda GZ10SL (Slimline) hospital bed mover is intelligently designed for moving patients safely. It is simple-to-use and is powerful enough for a person to move hospital beds weighing up to 500 kg, single-handedly. Whether you're moving patients between wards, or to and from the operating theatre, The GZ10SL hospital bed mover keeps your medical staff safe from muscle and back strains.

The GZ10SL has easy-to-use controls, including key start, twist grip variable speed control, horn, and emergency stop button. As with all Electrodrive equipment, the GZ10SL comes with a comprehensive 12-month warranty, including parts and labour.
