

Gzunda GZBARI PATIENT MOVER

The Australian-made Gzunda GZBARI Bariatric Patient Mover is designed to move 800 kg (including the weight of the patient, the bed and accessories).

Easy to steer and rotate, its twin direction control rollers provide improved frictional ground contact for maximum manoeuvrability.

Featuring power steering, a twin motor drive and a spring-loaded hitch bar the unit can effortlessly manoeuvre up and down inclines or ramps up to six degrees).

Ergonomically designed with an adjustable-height tiller handle, the control panel features push buttons with three speed, reverse and emergency/safety buttons.

Fitting neatly under your hospital bed, it requires only 100 mm of under-bed clearance. Its compact design enables easy steering through tight corridors and in-and-out of lifts.

The frame is constructed from all steel and is lead-free.

Typical applications

Suitable for moving hospital beds or stretchers with bariatric patients.
