

Tug Compact LINEN MOVER

The Tug Linen Mover is a Tug Compact with a custom hitch, specially designed for attaching to linen trolleys that are 500–700 mm wide.

Ideal for towing linen trolleys fitted with **two swivel and two fixed castors**.

As with all Electrodrive Tugs, this configuration will allow a user to tow up to 500 kg safely, and because it is nimble it will allow you to effortlessly manoeuvre heavy linen trolleys through tight corridors, avoiding the risk of collisions.

Using the tiller handle to tow the tug, the operator is in front of the load, increasing visibility and reducing the risk of collisions.

Powered towing can eliminate push/pull injuries caused by manually moving heavy trolleys or repetitive movements.

Typical applications

Suitable for hospitals, linen service, casinos, hospitality, warehouses, universities.
Ideal for towing linen trolleys fitted with two swivel and two fixed castors.

Features
