# Move equipment safely with Electrodrive Powered Tugs

**Safe.** Move trolleys and equipment safely by maximising forward vision, reducing the risk of collisions and the risk of back and side strains.

**Simple.** No license is required to operate a tug and it is easy to customise attachments to trolleys.

**Strong.** Tow up to 10 tonnes with a single operator.

**Quiet.** Smooth operation with zero emissions and low maintenance.

**Local.** Our powered tugs are manufactured right here in Australia.

Model	Compact Tug	Tug Rise 1T	Tug Axis 1T	Tug Axis 2T	Tug Axis 4T	Tug Axis 5T	Tug Tough 10T
